anamta.gohar25@gmail.com

## PROFILE

Computer Science undergraduate with a growing skillset in programming, web development (HTML, CSS, SASS) and basic machine learning. Quick learner with strong problem-solving abilities, a creative mindset, and experience in collaborative academic and extracurricular settings.

## KEY SKILLS

- HTML
- CSS
- SASS
- Bootstrap
- JavaScript
- Python
- Git

## LANGUAGES

- English
- Urdu/Hindi
- Korean

## EDUCATION

### Bachelor of Science: Computer Science

Minhaj University | Lahore.

2023 – 2027

## PROJECTS

**Text Vision** - OCR tool built with **Python**, OpenCV, and Tesseract to extract text from images, with accuracy tracking and performance evaluation.

### Web Development:

Created two responsive websites using **HTML**, **CSS**, and **JavaScript**:

- **Real Estate Website** – Designed and developed a clean, user-friendly interface showcasing property listings with interactive features.  
[<https://weholdings.netlify.app/>]
- **NoorReach Website** – Built a visually appealing site focused on content presentation and smooth user experience.
